Hi Don,

I'm forwarding you the reply I just received from the Manager of our Street Maintenance Division, which is responsible for our City sponsored trash receptacles and things like street sweeping.

I'm sorry we can't help you out more on this particular matter. Have a good weekend and stay safe in the predicted wet weather.

-Lance O.

Sorry for the delay, no we don't have any of these.

Hi John,

The Westchester BID sent me an inquiry to see if we might have any trash receptacles like the ones pictured stored in any of our maintenance yards. If so, can you let me know so that I can pass the info back to the BID's executive director? They're trying to locate another half dozen or more of these receptacles if we do happen to have some in storage somewhere.

I did let them know that we usually don't stock-pile street furniture like this, so they understand that there's a good chance that we won't have anything available. Thanks in advance for your assistance with this request.

-Lance O.

Here are a couple of photos of the trash receptacles we're looking for. The slats are wood (or plastic wood). We've re-painted and repaired these old receptacles that were originally provided by the City and used along Sepulveda. I'd like to find any number of them and have immediate spaces for 4 or 5. Thanks for any help you can provide.
